TERM 4 WEEK 2 2017

CHORDS Concert

Congratulations to Ryan Kemp, Charlie Lyons, Caleb Brown and Ivy Ankers. They had a very long day performing yesterday and I was very proud of them. The concert was once again an amazing experience and a great showcase of Public Education in collaboration!

Touch Footy Day

Some of our students have been selected to participate in a Touch Footy Day tomorrow. Miss Fuller will supervise the team in Wagga and students should return around 2pm. Parents are responsible to organise the transport.

Ballarat Excursion Meeting

Parents of the students attending the excursion are asked to attend a meeting with Miss Fuller and I this Thursday afternoon at 3:40pm. Expectations, itinerary and what to bring will be discussed.

Tell Them From Me Surveys

This is the last week to voice your opinion on how we are doing at school. Students in years 4,5,6 will also be completing the survey this week.

School Hats

During this term all students are required to wear a school hat if they wish to play in the sun. School hats are available for purchase from the school office.

Walanmarra Gunddyarri NRL Cultural Day

This is a footy day aimed at celebrating Indigenous culture and will be held in Wagga next Thursday. The small schools are putting together a team of our Year 5/6 students. A note will be sent home today to those students involved.

Breakfast Club

I have initiated a simple breakfast program as a number of students were eating their lunch or snacks before school. The routine will be for students to bring a piece of fresh fruit to share and they can make themselves a piece of toast. Students will need to demonstrate good table manners and clean their utensils and area before leaving the canteen. We will review this system later in the term.

STEM Presentation

Miss Fuller will be presenting a report next Friday on the STEM project she has been involved in this year with her class. She will be presenting her class's learning journey at a forum of other schools across Wagga and visiting officials from Sydney.

It is very exciting to see the deep learning that has been covered throughout the year and we hope to present this to all our families here at school before too long.
